## A SAFE TEST

For those who are in need of a remedy for kidney troubles and backache, it is a good plan to try Doan's Kidney Pills. They are strongly recommended by Norway people.

Wm. O. Needham, retired farmer, Main St., Norway, says: "At different times, when I have taken cold, my kidneys have become affected. Several years ago when I felt that my kidneys needed attention, I got Doan's Kidney Pills from F. P. Stone's Drug Store. They strengthened my kidneys, ridding my system of the excess of uric acid and in a short time I felt much better."

The above statement was given July 24, 1908 and on June 6, 1916, Mr. Needham said: "I still endorse Doan's Kidney Pills and my confidence in them is as strong as ever. I occasionally use Doan's when I feel in need of them and always get fine results."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Needham had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Leslie J. Kendall

Leslie Jasper Kendall, a highly respected citizen, passed away at 2 o'clock, Tuesday morning, Sept. 25, at his home, 35 Winslow street, Everett, Mass., after a short illness which developed into pneumonia. Every effort was made to alleviate his suffering and restore him to health, but they were futile. The end came peacefully.

Mr. Kendall was born April 2, 1855, in Newry, Sunday River Valley, Oxford County, and was the third son of the late Justus J. and Maria A. (Merrill) Kendall. His boyhood and early manhood were spent in that place and vicinity. In the late seventies he went to Boston and has been in continuous business at the Boston & Maine Produce Market. His leisure hours were spent in giving expression to his natural genius and he has produced violins of superior tone and finish, a grandfather's clock and several pieces of cabinet work attest to his ability and infinite patience in handicraft. He was a great lover of nature and music.

Sept. 27, 1887, he married Margaret J. Maher of Chatham, N. B., at St. Mary's Church, Charlestown, Mass., Rev. William F. Powers officiating. Two children were born to them, Leslie Gilmore, who resides with his parents, and Frederick Foster, who passed away May 16, 1905, at the age of 12 years and 7 months. Mr. Kendall was a man of sterling worth, loved and respected by all. The loss to his family is irreparable and deeply mourned by his relatives and friends.

Thursday, Sept. 27, 1917, the day he was laid to rest, was the 30th anniversary of their marriage. Among the relatives present at the funeral was Mr. and Mrs. Frank F. Kendall and family, Everett, Mass.; Herbert M. Kendall and daughter, Ella E. Kendall, Newry, Sunday River Valley; Mrs. A. E. (Kendall) Grover, Norway; Barton A. Smith, South Portland; Mrs. Winifred (Kendall) Chase, West Somerville, Mass.; Mrs. Mildred (Kendall) Baker, Brookline, Mass.; Mrs. Kendall's sister, Nellie Maher; sister and husband, Mr. and Mrs. John C. Carey, New York; Tracy Little, a native of Maine and close friend, now of Boston.

His business associates attended in a body. The floral offerings were beautiful from relatives, friends and business associates, and bore mute testimony of love and respect.

## PICK UPS ON WHEELS

South Arm, Richardson Lake isn't what it used to be. The road leading is better especially that portion which is subsidized by the State. This is proper and as it should be. A good road there is necessary.

Robert's Hotel was burnt three years ago last January and Mrs. Graves and Burgess lost what they had in it. They built small log cabin camps nearby and are doing business in spite of the high cost of living. More camps are to be built for next season.

They have eight row boats and two motor boats. The latter were out of commission Sept. 24 and I did not visit Mettallus Brook, tide-water fishing grounds after dark. Good catches are being made at that place. I once got a trout weighing seven and one-half pounds near Mettallus Point and am now looking for another.

Camp register shows a long list of fishermen who have been here this season. Bob and Mrs. Seavey, Ike Waite, Capt. Nash, Postmaster DeCoster and many other familiar names were seen. Mother and I have our names enrolled, but only one fish to our credit. This was a small one taken with a fly off the pier, Tuesday, Sept. 26, before breakfast. A sizeable trout flirted with the fly, but would not take it.

Walter crossed Ellis River over the Iron Bridge near the great works of the McCillis Nickle, Paint and Mineral Fertilizer derricks and crushing machines. A Boston bank is to sell this property sometime this month, for the benefit of bond holders and will not consider any bid less than \$50,000.00 on the start and you must deposit a \$5,000.00 certified check along with your offer.

Big construction undertaking is progressing at Rumford Falls and has been for the past 25 years. "The Falls" is an enormous stone quarry which is now being reinforced with cement and iron for the conversion of water into electric power. Surely, Rumford is a huge power station with high priced board and building lots.

I was invited to inspect the new county building, but did not have time, preferring to call on Editor Tracy L. Barker of the Times and look over his print shop—the like of which is seldom seen. Barker is a veritable Horace Greeley, working overtime for the uplift of the community and the ultimate conversion of the world to the doctrines of high tariff. This is commendable. How well he is succeeding I cannot say as the high cost of newsprint a long time ago caused him to cut off exchanges and sever diplomatic relations with competitors.

Col. Geo. D. Bisbee was seen in his private office looking over samples for a suit of clothes and before him on the desk was a photograph of his grandson, Capt. Spaulding Bisbee in uniform, who is in command of a regiment of 250 men.

I was told that his son, Stanley, was able to come down stairs and set at the table for the first time last Sunday, (Sept. 23d). He had recently submitted to the amputation of a portion of a leg and was getting on nicely.

Col. Bisbee expressed a desire to visit Quimby Pond up Rangley way and catch some trout. Both he and Stanley had been there this summer and had good catches—six fish only can be killed in a day. He stops at Scott's Camps and speaks well of the place.

Ex-County Attorney, Ralph Parker, was so busy expounding the intricacies of law to clients as to lead me to think he ought to have a vacation. I did not suggest this as it would have been impolite.

Judge A. E. Stearns was out, consequently I did not see him. I did inquire about his son, who is in the ambulance service, somewhere in France and was told he was getting on nicely when last heard from.

The Judge is out of Swift River lumbering and is now devoting all his energy to law, real estate and finance.

Dinner was got at Hotel Stanley, Dixfield, and John F. Harlow and sister were seen. I tried to find a barber, but it was a shut-up day for them.

A visit to Mr. Harlow's office revealed a good many desks and filing cabinets and a big equipment of modern office machinery. Certainly the marketing of toothpicks and law is attended with a good deal of detail in this locality.

I begin to see some reason for the enormous town tax assessed against him. It is almost double that of any other person or corporation in the town.

Mr. Harlow has a son, distinguishable from him by age and the word "Junior" somewhere in France. John was too modest to say anything about the absent son from other sources however, but learned he was well and making good on the other side. He is in the ambulance service and on the expiration of his enlistment is thinking of going into the Aviation Corp where there is less hazard than in his present service.

## MINISTER IS CANDIDATE

Native of Newry Runs for Bay State Legislature

Rev. Levi M. Powers, D. D., pastor of the Universalist church at Gloucester, has announced his candidacy for representative to the Massachusetts legislature from the 2nd Essex County district comprising five of the eight wards in Gloucester.

His opponent will be Representative James E. Tolman, and he will run as a candidate of the Democratic Progressive coalition.

Dr. Powers, in his announcement, says that while attending recently a hearing of the Recess Committee on Health Insurance in Boston, he was told, in effect: "It's not much use for you to come here; you represent no one." To which he replied: "Perhaps I do not represent someone. I think I represent many who have sent no paid attorneys to this commission. I think I will try and come to you with a commission from the people to help the Governor realize his wishes for adequate and human care of the sick and aged."

Dr. Powers says that for 2 years he has been preaching "Brotherhood," and that it is a great work, but "that he has become impatient at the way every law that would help the realization of brotherhood is being fought."

Dr. Powers is a native of the town of Newry.

There was quite a freight wreck on the Mountain division of the Maine Central during the night, Thursday, Oct. 11, which piled up seven cars on the track between Fryeburg and Conway Center. They got a hole through the wreck at about 6:30 a. m., and the trains were passed along with about an hour's delay. It took most of the day, however, to clear up the pieces. No person was injured in the accident, but the money damage to the railroad property was fairly heavy.

## DON'T HESITATE AS I DID, SHE TELLS

Portland Woman, After Her Experience, Gladly Advises Others.

"I used to try to force myself to eat to try to keep up my strength, but I always regretted it," said Louise Larkin, of R. F. D. No. 4, Falmouth Foreside. "After I ate I would be miserable with gas, bloating and pains," she continued.

"I had stomach trouble for more than a year and no appetite and the gas that formed seemed to force its way up around my heart, and under my left arm and shoulder blade. I also had pains in my limbs that I thought was rheumatism.

"I would tire easily when walking and would have to rest. I was very run down and my nerves were in bad condition. Even a door slamming would make me jump as if I had been shot. I could only sleep until three or four o'clock in the morning and this made me weaker and worried me, as without my full rest it was hard for me to get through my work and the day seemed endless.

"My color was not good and I was losing weight and I was very worried when I happened to see some of the wonderful Tanlac stories by others who had suffered as I was. I decided to try this Tanlac and got so much relief from the first bottle that I got another right away.

"It drove away all the bad symptoms as I have told of. I only had a slight sensation under my arm and that only once or twice. My color improved and I began to gain weight. I slept well the whole night through and woke up full of energy and ambition to begin the day I felt contented and did not worry. I was so happy over the change that I was glad to tell my experience for others and advise them not to hesitate as I did but to try Tanlac right away."

Tanlac now is being specially introduced in Norway at P. P. Stone's drug store. There is a Tanlac agent in every Maine town. Nearby Tanlac agents are South Paris, C. H. Howard; Harrison, Eugene Tenney; Bridgton, F. E. Stevens; Waterford, L. R. Rounds; East Waterford, R. E. Pinkham; West Paris, S. T. White. adv.

## McKay-Proudlowe and Amy

Proudlowe were united in marriage Saturday morning, Oct. 13, at the Universalist parsonage, South Paris, by Rev. Chester Gore Miller, the double ring service being used. The bride's traveling suit was gray broadcloth with fur trimmings and hat to match. They left immediately by automobile for parts unknown and will make their home in Providence, R. I.

I. and the remainder passed here. She has been employed as compositor in the Advertiser Office a few years ago and since at the Carroll, Jellerson Shoe Co.

After his absence of nearly fifty years he came East about fifteen years ago for a visit and returned again in 1916 for a few weeks' stay at his early home in Buckfield and with the brother and sisters in this locality.

## SUPREME JUDICIAL COURT.

October Term.

In the Civil case of Eunice Ridlon of Hiram vs. Fred C. Small, for damages including the price of boards sawed from timber cut upon land claimed by the plaintiff has been settled by the jury who awarded Mrs. Ridlon \$270. Elias Smith for Mrs. Ridlon, James S. Wright for defendant.

Benjamin N. Wells was given an award over Ralph L. Herrick for the recovery of \$350 which Wells claimed Herrick owed him on a transaction for a home during the remainder of his life. The amount included personal property and deposits in the bank.

It appeared that after the transaction had been made, Herrick it is claimed, made living uncomfortable and Wells, who is far along in years and the board returned to camp where he had previously lived. It was charged that Herrick took advantage of Wells' ignorance and secured his signature to certain papers that gave practically everything Wells possessed to the defendant.

Mrs. Herrick was unable to throw much light on the facts at issue and their daughter, Mabel Herrick, eight years old, was excused from testifying by Judge Cornish. The jury returned a verdict in favor of the plaintiff in about 15 minutes.

Eugene F. Smith for Wells and Albert J. Stearns for Herrick.

Eugene McKee vs. Virgil H. Littlefield. E. F. Smith for plaintiff, A. J. Stearns for defendant occupied a short time.

The parties live in Stonham, and McKee had worked for Littlefield driving team. The suit was brought to recover a balance of \$48.97 due McKee as wages for labor as teamster during the summer of 1916. The defense was that McKee drank and that about the middle of August an oral contract was made between them that if McKee again became intoxicated he would forfeit whatever was due him. On the 7th or 8th of September he was again under the influence of drink and was discharged from him. This suit was brought to recover the wages then due. McKee denied having made such a contract as testified to by Littlefield. Witnesses for the defense testified to his having told them that he had made such a contract.

A decision was made as to the amount of the account, which was due unless it was nullified by the contract alleged.

Verdict for defendant, and to special inquiry submitted to the jury by the court, asking whether the contract was nullified by the defense, the jury replied, "Yes."

CRIMINAL BUSINESS.  
The grand jury completed its work after being in session three days and were discharged for the term. Indictments made public were as follows:

Albert Unton, alias Anton Albrick, illegal transportation.

Philip Ash, assault and battery.

Steph Ridd, alias Stevie Bistick.

William Wheeler, forger.

Joseph Johnson, larceny.

Victor Kneeland, larceny.

Harry J. Anderson, alias Harry Adams and Harry G. Bushman, alias Hughie Bingham, two indictments for breaking, entering and larceny.

Thomas Haman and John Miller, breaking, entering and larceny.

Thomas Alfredson, Harry Weiner and George Morrison, breaking, entering and larceny.

The process of calling the continued criminal docket and making some disposition of the cases which it contained occupied most of Saturday. What made the work of disposing of the matter slower was the fact that County Attorney Dyer is now on his first term and that he was not familiar with the cases.

Saturday's work was partially reduced the size of the docket. Each case was carefully looked up by the court to ascertain its status as far as possible, the attorneys and the sheriffs being consulted in many cases. Nearly a score of the cases were on account of illness.

A dozen were filed because the respondents were out of the state with no prospect of returning, and between forty and fifty were placed on file during the good behavior of the respondents.

By the time over seventy of the cases were removed from the docket.

ARRAIGNMENTS.  
Saturday afternoon the prisoners in jail and a number of respondents who had been brought in by the officers, were arraigned.

Victor Kneeland of Fryeburg, indicted for the larceny of currency and a check of a total value of \$47, the property of Allison Kneeland, pleaded guilty.

Harry J. Anderson, alias Harry Adams, and Harry G. Bushman, alias Hughie Bingham, both of Skowhegan, were arraigned on two indictments alleging breaking and entering and larceny at the grain mill of George Carson and the store of George L. Wadlin & Co. at Canton on the night of July 28. Both pleaded guilty to both indictments.

Thomas Alfredson of Bridgton, N. J., Harry Weiner of Jersey City, N. J., and George Morrison of Brockton, Mass., all pleaded guilty to breaking and entering the store of Almon Johnson in Brownfield on the 11th of October.

## AN OPERATION

AVERTED

Philadelphia, Pa.—"One year ago I was very sick and I suffered with pains in my side and back until I nearly went crazy. I went to different doctors and they all said I had female trouble and they all said I would not get any relief until I would be operated on. I had suffered for four years before this time, but I kept getting worse the more medicine I took. Every month since I was a young girl I had suffered with cramps in my sides at periods and was never regular. I saw your advertisement in the newspaper and the picture of a woman who had been saved from an operation and this picture was impressed on my mind. The doctor had given me only two more days to make up my mind so I sent my husband to the drug store at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and believe me, I soon noticed a change and when I had finished the third bottle I was cured and never felt better. I grant you the privilege to publish my letter and am only too glad to let other women know of my cure."—Mrs. THOS. MCGONIGAL, 3432 Hartwell Street, Phila., Pa.

Read what Daisy Baker's Mother says about Home-Made Bread and how much she can save on her household expenses.

## Look at this Bread!

If you could only actually see it, smell it and taste it!

Yes, I baked it myself. It's very little trouble and it's lots better than I can buy.

Then too, it means a big saving. I am cutting down on my meat bills because the family is eating so much more bread. They seem to like it better than the more expensive foods.

Even if I were not saving on my other bills, I am still saving almost half on the bread itself.

You can do the same thing. It's not hard. All you need is a good recipe and a good flour.

The flour that I use is wonderfully easy to work with. It's made in Ohio—right in the Miami Valley where the soft winter wheat has an unusual quality on account of the rich limestone soil. It's good for everything, and it gives a most delicious nutty flavor to your baking. Take my advice and try

### Welchville Fair

Oxford Grange, No. 46, held their second annual fair at Welchville, Saturday, Oct. 13, with the hall as nucleus around which the events were carried out. A general committee had charge of affairs and was composed of Grange Master, W. E. Gammon, Mrs. A. L. Chaplin, Mr. and Mrs. J. W. Hunting and Florence Denning. Citizens in Oxford and Welchville, not members of the order gladly assisted in every possible way to make the exhibition an interesting attraction and a mutual social gathering. At this time friends living far apart met for the day, exchanged their summer experiences and discussed matters of personal or general interest.

Grouped near the hall entrance was Nainy of Oxford, with a large line of general dry goods, mackinaws, sweaters and other cold weather garments. His business was good. Will Twitchell sold ice cream cones, cigars and fruit from his Ford truck, keeping busy so long as the stock lasted. John Quinn handled pop corn with several youngsters peddling for him about the hall and ball game lot. Payson Brett started a pin game and drew good patronage until the ball players vanished, then all was quiet. D. R. Danforth, Mechanic Falls, took post card photographs and finished them on the spot. In this he secured many notable features among them Roscoe F. Staples, who posed several times to accommodate waiting friends. He also called his two grandsons, Clarence aged 5 and Roscoe aged 9, into the game for a family party.

Several fakers from Lewiston set up with various games, but after running a while were ordered to close down, spin-dle turning for cash only didn't go here. The whip and cane man was allowed to continue.

Everybody did themselves proud by the way they brought articles to make an interesting display. Fancy articles predominated and this department was worthy a place in more pretentious exhibitions. Each article was not the handiwork of local people, but the tables were attractive and for comparison, but the larger portion was strictly home labor. In this department Mrs. Gardner Edwards and Ethel Mayhew showed hand worked sofa pillows; Emma Holden, crocheted afghan; Marion S. Fuller, Florence M. Wight, Mrs. G. C. Warren, G. Crochet pieces and embroidery; Mrs. Mac Perkins, Mrs. Lillian King, delicate pieces of crochet and embroidery; Mrs. W. L. Caldwell, 80 years of age, an old fashioned knit tidi; Emma Holden, Doris Richmond, Mrs. Gardner Edwards, fine needle work in linen; Mrs. W. L. Caldwell, Mrs. Henry Hurst, Mrs. John B. Gibson, Alice King Wilson, Mrs. W. B. Warren, Mrs. A. L. Chaplin, Mrs. E. A. Brown, Mrs. Chas. Hall, large collection of hand embroidered linen in various patterns; Mrs. G. W. Tyner, Mrs. Belle Lamb, Mrs. Lillian King, Stella Bowker, Eleanor D. Horr, collection of miscellaneous fancy work exhibit and crocheted articles.

Many valuable foreign pieces were shown and each genuine goods. Ethel Caldwell had a sample of fine Burrian embroidery; Mrs. MacIntire displayed a Japanese pillow cover of brilliant colors and characteristic design; Mrs. W. L. Caldwell offered beautiful Japanese hand embroidery on linen with drawn work borders carrying out the typical dragon effect, also delicate Spanish fancy work, a production from experts.

Mary Coy had a fine hand work collar and infant's bonnet. Blankets and spreads on a line extending across the hall attracted attention. Mrs. J. P. Hall had blankets in the collection showing crazy patchwork, feather stitch effects and diamond piecing; Mrs. Helen Pettengill offered a hand knit spread.

The Grange circle had on sale a table loaded with serviceable aprons in print and gingham. Each article was well made and the price far below the store product.

Helen Thomas Pratt displayed ten crayon sketches of various nature subjects well executed; W. F. Caldwell offered a neat collection of framed oil paintings, the subjects being "On the Seacoast," "The Birch," "One the Maine Coast," "The Birches" and "English Scene."

Handicraft work was represented by Florence Hunting with an oak post card holder and table book shelf. There were samples of basket weaving in two forms.

An unnamed contributor and mechanical genius exhibited a toy auto with all parts represented and run by clock work. It was made by a person while convalescing from illness, to pass away the long hours.

Vegetables and fruit were not shown to any large extent because of various adverse conditions. Prof. Geo. Yeaton C. H. Brett offered a well arranged farm exhibit that included apples, pumpkins, cabbage, beans and squashes; H. H. Mayberry, Roscoe Staples, S. O. Dudley, each made an offering of farm products consisting of various vegetables; J. W. Hunting's display included his Riverside Farm beans, cabbages, sugar varieties beans, corn and sage, the best tops were regular giants. Philip S. King showed mammoth ears of Longfellow field corn planted June 9, 1917, also cabbage and cauliflower. G. H. Knight had traces of King Philip corn.

The apples on exhibition were of good form, large size and fairly colored. Apparently the season has not been just right for a bumper crop. Many varieties were shown, but as a rule in small individual lots. Among those were A. L. Tyner, R. F. Staples, C. H. Hurst, D. L. Martin, J. B. Robinson, Fred Gammon, Chas. K. Denning of Elnora Farm, Mechanic Falls had nineteen varieties in a well arranged display. W. H. Thomas was a close second with a good showing of fruit well formed.

Canned fruit and preserves offered by Mrs. Charles K. Denning, Mechanic Falls, was a fine show of the cold packed product. It included six kinds of pickles, vegetables, grapes, beans, grape catsup, crab apples, berries and quince raised on the farm. There were 26 jars neatly labeled and well displayed. A. N. Tyner also showed his canned products to advantage. In the collection were pears, beet greens, chili sauce, beans, plums, mustard pickles and apple jelly.

In the miscellaneous exhibit Mrs. Llewellyn Smith, the Oxford milliner, occupied the side of the stage with an array of hats in late models. Her assistant was Gertrude Brown of Bethel. Atherton store of Norway with Ossie Ballard in charge occupied the other side and displayed Columbia Grafonolas, furniture and passed out literature to the music of the machines. Autumn leaves, lace curtains and electric lights made both exhibits an attractive hall feature. K. O. Byron of Lewiston, the well

known jeweler and wire worker, handled rings, chains and made your name with gold wire in record time. He also carried on an engraving business.

In one corner bantam hens were shown by Agnes Fuller; Angora kittens and three Scotch-Lie pups by Agnes H. Fuller, South Paris. These were from a litter of five and full blooded stock, their ancestors being imported. A guinea pig was the property of Ruth Patterson.

Dinner. A splendid grange dinner was served in the dining room at noon. The ladies truly did themselves proud and set before their patrons a bountiful menu that included baked beans, brown bread, doughnuts, pumpkin pies, cream pies and other things that go toward making a dinner complete. More than two hundred and twenty-five persons were served and a large sum of money realized that will be turned over to the Grange fund. The waitresses were Etha Corey, Mand Dorey, Grace Smith, Marion Fuller, Florence Wright, Melissa Yeaton, Florence Hunting, Doris Ramsdell, Rachel Mason, Belle Hunt.

Cattle. This department was opened in the rear of the hall, but few entries appeared. A. L. Wyman showed the Holstein breed of registered stock. He had a cow and yearling bull, Orin Martin, Pidgeon Hill also had a registered Holstein stock. B. E. Rowe, Oxford, brought over a thorough bred Holstein cow, heifer and calf. The committee were A. L. Chaplin and J. W. Hunting.

Base Ball. Oxford High school and Welchville crossed bats at 2 o'clock. The diamond was laid out in the hayfield on a side street some distance from the center of activity. It was a rough place for base ball and every ball hit carried a big guess with it, perhaps you had it and perhaps you didn't. They played the game with excitement at top notch and enjoyed the fun just the same.

Oxford sent in practically a school team, but the nine gathered under the name of Welchville had been gathered in from the four points of the compass, yet hung together considering the strange line up. Batteries were Fuller, and Glover for the school boys, Brown of Gould's Academy and Martin for the Welchville contingent. Davis of Oxford was the official. Score 9 to 7 in favor of Welchville.

Horse Pulling. This was the big show and attracted a large crowd along the main thoroughfare. The start was made nearly opposite the hall and continued past Grant's Hill. A fair load of rock piled on the drag was not overdone and the several pairs pulled it up easily for long pulls, this made an interesting match without straining the teams. Everybody was good natured and the drivers were forced to put up with large junks of geying.

The first match was a novelty. This was an unmatched combination with Clem Poland's horse hitched up with one of Clint Nuttings'. They were unequal in weight, but handled the 4,000 pound load (estimated) easily. In five minutes they cleaned 432 feet, 8 inches. This was a mighty good record under the circumstances.

A. L. Chaplin, Welchville, hitched on his 3,000 pound pair, pulling away the load in an easy manner. Things were going so easily the three judges were given a free ride down the street on the load. Distance 322 feet, 11 inches.

B. E. Rowe, Welchville, tried his luck with his 3000 pound pair. The judges had another ride on this drag to increase the weight, they made 440 feet, 7 inches. J. K. Russ, Oxford, entered his 3000 pound pair and with the judges came in as passengers, trimmed the whole field, going 448 feet, 3 inches.

Judges, W. H. Thomas, A. K. Thomas, Frank Sturtevant, Timekeeper, L. N. Bean, Otisfield.

Dance. Spurr's Corner orchestra furnished music for the dance that was largely attended in the evening. The upper hall had been cleared early and the merry couples whirled about until a late hour, bringing to an end the most successful fair given by the Oxford Grange.

Antiques. This department was well filled and many rare historical relics, valuable documents and heirlooms were brought from seclusion for the day.

Alice King Wilson had on exhibition a variety of hand forged nails, candle mould, fire bellows, ancient jewelry, an old fan of odd design, valuable china, a set of very old solid silver spoons with the handles welded to the bowls, pair net mitts, hand spun and woven wool goods.

Agnes H. Fuller brought over one of the first models of double-action revolvers, sword carried by Lieut. Nathaniel Fuller during the Revolutionary war, wooden shoes from Brussels, old fashioned brooches.

Charles L. Brett, an old time apple parer, andirons with shovel, tongues and tailors goose, first medicine trunk used by Dr. Asa Danforth of Norway in 1820. Mrs. S. M. Patterson was the owner of the willow china cups, saucer and plate more than 125 years old. Mrs. Seth Ames had woven towels very old. Silk shawls were shown by Mrs. Tyner and Mrs. Brett. The bracelet woven from human hair, jewel setting was a novelty placed on exhibition by Marion S. Spiller. Mrs. A. L. Chaplin displayed a fine collection of old jewelry and cut silver ornaments. Mrs. G. W. Tyner also had several pieces of jewelry including cameo pins and inlaid buttons. A beaded bag 100 years old, an ink well and very old style looking glass was the property of Mrs. C. Denning.

W. F. Caldwell exhibited a cane from the battlefield of Gettysburg. Other Civil war relics included rings made from a rubber coat button and beef bones in Libby Prison, 1863, by Arthur Larrabee; a souvenir match holder, the base made from a floor board taken from Old Col.

leg used as a Confederate hospital during the Gettysburg battle, ornaments were granite from Little Round Top and a piece of an iron shell, the match container or was part of a fence around the farm where Fickett made the famous charge.

Mrs. J. W. Hunting's valuable Plymouth, Mass., court documents were well preserved and of historical value. They were deeds executed in 1706, 1721, 1722 and taken from the old Plymouth, Mass., court house which it burned years ago. The colonial officials whose names are affixed were from prominent families of English descent and afterward active in the Revolutionary movement. She also had a Youth's Companion dated June 12, 1862.

Mrs. John Hall exhibited a large pulpit Bible dated 1822, also a dainty hand woven infants clothing 91 years old.

## BROWNFIELD

A Break in Jewelry Store  
Driven from the woods into the road by a posse of 15 citizens a short time after they had made a break at the jewelry store of Almon P. Johnson in Brownfield, three young men giving their names as Thomas Alfredo of Bidgewood, N. J., Harry Weiner of Jersey City and George Morrison of Brockton, Mass., were captured and taken to the Oxford county jail at South Paris by Deputy Sheriff Stanley. The trio secured only about \$5 worth of goods at the Johnson place, but it is reported that when searched at South Paris they had other jewelry which is believed to have been secured in breaks elsewhere.

The break was made in broad daylight, at about 7 o'clock Thursday, Oct. 11, and was discovered by Fred Gould, who was passing the store just as the three men were making their exit from a back window. The men ran toward the woods and Gould immediately gave the alarm. In a few minutes villagers had the three surrounded, and as they closed in on them the men came out into the roadway and were seized. They were turned over to the deputy sheriff, who took them to the county seat.

## NORTH LOVELL

Will Sanborn, who has been working for Clinton Milliken on the cottage, has finished his work and returned to his home in Stow. The chimney that Mr. Sanborn has built is worth going to see. It is built of common rocks and cement, is built on a solid foundation six feet square, has a fine fire place with a key-stone arch, a rock and cement mantle piece and hearth. Altogether it is a fine substantial piece of work of which any mason should feel proud.

Mrs. Susie Gammon and Mrs. Jennie Lawrence of Norway visited at Perley McKen's for a week. They are at H. B. Eastman's at North Fryeburg this week and will return to North Lovell later.

His health has not been good for some time, but his death was unexpected as he had been feeling better for a few weeks.

He was the son of Gorham and Sophia McAllister and was a native of Lovell, in which town he has lived the greater part of his life. He leaves one brother, Augustus McAllister of Bangs, four sisters, Mrs. Cora Butters, Mrs. Viola Stone, Mrs. Lottie Butters and Mrs. Millie Butters and other relatives and friends to miss him. Comforting words were spoken by the Rev. C. E. Fisher. His brother Old Folgers and members of Keweenaw Lake Grange to which orders he belonged, were in attendance at the obsequies. The floral offerings were many and very beautiful. Interment was in the family lot at Pine Grove cemetery.

## NORWAY AND VICINITY.

### PUBLIC SAFETY MEASURES

Sometime between Oct. 28 and Nov. 4, the United States Food Administration through its local chairman, Robert F. Bickford and his associates, will ask every woman in Norway who cooks food to sign the national pledge card. The war will be won by the side having the greatest supply of food. The Allies as well as the Central Empires, are short of food. If they can make up their deficit from the United States there is no question but what Germany will be whipped. Already our government has varying any shipments of food stuff to so-called neutral countries, which would ultimately find their way into Germany. But our country must do more; we must supply more than four hundred million bushels of wheat to our allies in Europe. Normally we export not more than a hundred million.

If the housewives of America will sign the Hoover pledge card and live up to it they have contributed to a successful termination of the war, and in doing this they are not asked to suffer hard ships. They are simply asked to pledge themselves to substitute certain foods to a certain degree for wheat, sugar and a few other items and to waste nothing. Many families are practically economizing in this direction already because of the abnormally high prices. They will sign the card willingly. The sacrifice by those who have not taken the matter seriously will, it is hoped, readily follow. The saving of a pound of wheat per capita per week will solve the wheat problem, assuming each person consumes five pounds a week.

Some will be inclined to consider the pledge card lightly, as being a fad. No error could be more fatal than this. The U. S. Food Administration with all its state organizations would not spend precious time in starting this conservation drive if the need were not imperative. Remember the Allies are fighting our fight till we can get armies into shape, and the more speedily Germany is disheartened and forced to sue for peace, the more American boys will have to die. So sign the card. If you're skipped in the canvass it will be by oversight. In that event it is your duty to demand a card and file it. Let there be no food slackers in Norway, for never did the work of the individual count as now.

Waste less food. Preach and practise the "gospel of the clean plate." Help the United States Food Administration.

Practice economy in the kitchen and at the table. Help supply our comrades in arms and our Allies with the food they most urgently require.

Food conservation is the duty of every American. Wheat, beef and sugar are urgently needed for shipment abroad, for the sustenance of the American and Allied forces in the field.

Co-operate with the United States Food Administration. Patronize our local food producers and lessen the need of transportation. Buy Maine-made products.

American people are not asked to starve themselves. Eat plenty but wisely, and without waste. Do your bit by co-operating with the U. S. Food Administration.

Watch out for the waste of food in your community and home. The U. S. Food Administration requests the aid of every man, woman and child in winning this war.

Urge your neighbors to waste less food to cook no more than necessary, to eat less wheat and meat—and practice what you preach.

What are you doing to help win the war? Will you help by practicing economy in the kitchen and at the table? Co-operate with the U. S. Food Administration.

Perhaps your boy is, or will soon be fighting "somewhere in France." Will you help to feed him by wasting less at home? The U. S. Food Administration requests your aid.

One ounce of meat. If we will save one ounce of meat per person per day, we can send our Allies and our boys in Europe what they need. Help the U. S. Food Administration.

Will you waste less? We must send more wheat, more meat, more butter and milk, more sugar to our Allies, if we are to win this war. Will you help?

The usual American consumption of sugar per person is just double that of France. Will you do your bit by using less, wasting less?

Our war and your war! Those of us who cannot shoulder a gun can shoulder some responsibility and waste less food. Will you?

If we reduce our consumption of wheat flour from five pounds to four a week per person, we can send our Allies what they need. The U. S. Food Administration asks your help.

One pound of wheat saved per week per person means the saving of 100 million pounds per week throughout the country, the solution of the problem. Will you help?

For the sustenance of the American and allied forces in the field, and the relief of our people in France and Belgium, we must send more wheat, more beef and sugar abroad. Will you waste less, so that we can?

# Make The WORLD SAFE For Business

This war is not only a war to make the world safe for democracy. It is a war to make the world safe for life and liberty. And it is a war to make the world safe for business. This world is not big enough for both business and war. One of them must go.

If more wars are going to come; if every nation is going to be turned into a vast armed camp; if we have to see bayonets on every street corner and guns on every merchant ship; if we must tax our people and our commerce to support a vast army and an immense navy and be prepared to throw the whole power of the nation into the battle line at a 24 hours' notice—then business, as we in America understand it, cannot continue to exist. The burden will be too great.

If business is to prosper and legitimate commerce to continue unchecked and free from the blight of warfare, then war must end. Militarism and business cannot exist side by side.

This is more than war for democracy, liberty, life, and business. It is a war to end war.

The only way this war can be ended with a peace that shall endure, is in victory for the United States and our allies.

To be victorious, the Second Liberty Loan of 1917 must be promptly and fully subscribed.

Every dollar you put into these bonds is a dollar subscribed to end war and provide the basis for an enduring peace.

The bonds are the best investment in the market—a direct obligation of the United States Government, bearing 4 per cent. interest, maturing in 25 years, free from the normal federal income tax and from local personal property taxes, readily marketable and readily available as collateral.

It is to your own best interests to go to your bank and subscribe—to-day.

**"Better Than Worm Tablets"**  
Some people who are troubled with worms, or whose children sometimes suffer that way, try to get rid of the trouble by using worm tablets, worm lozenges or worm candy. They fail to get the quick results that can be obtained with Dr. True's Elixir, the family laxative and worm expeller.

In fact Dr. True's Elixir, a liquid medicine, is positively better than any worm tablets, worm lozenges or worm candy. There is no remedy that can compare with Dr. True's Elixir for quickly expelling worms, whether they are stomach worms or pin worms.

Besides that, your stomach is toned up and normal action of the bowels is restored when you take Dr. True's Elixir. It is a doctor's preparation, originated by Dr. True and on the market more than 60 years.

Dr. True's Elixir, the Family Laxative and Worm Expeller, pleasantly, easily and quickly expels worms and makes you feel much better. Remember this when you or your children are troubled with worms. Don't take these worm lozenges, tablets or candy that may upset you, but use Dr. True's Elixir that tones and soothes stomach and bowels and expels worms.

### A TREAT COMING

The readers of the Norway Advertiser have a treat in store for them soon. A very interesting article is to appear in the Advertiser entitled, "Looking Backward in Boister's Mills," written by Granville Fernald of South Waterford. He tells of many interesting places and events and acquaints us with the people who lived in that vicinity a few brief years ago, many of whom are the ancestors of the present inhabitants. It is worth reading. Watch for it.

### WHAT CAN YOU CAN?

A week or so ago one of the canning experts of the United States Department of Agriculture reported that a group of girls in a small southern community had this year added their bit to the country's food supply by putting up 7,290 quarts of tomatoes, 2,850 quarts of peas, 324 quarts of okra and tomatoes mixed, 260 quarts of soup mixture, and 850 quarts of guavas. The canning season for the North is now upon us. If in each northern community a group of girls were to follow the good example of these southern girls, the H. would soon disappear from the H. C. of L.
